### The Storm in the West of Romania

*Day by day, more and more storms occur in Romania and cause a lot of trouble. For example, here we have this case which happened in 2017 and took place in the west of Romania:*

*The storm had 100 kilometers per hour and lasted only 15 minutes but despite its short period of time, it caused a lot of damage. Eight people died in that storm and 140 people got injured.*

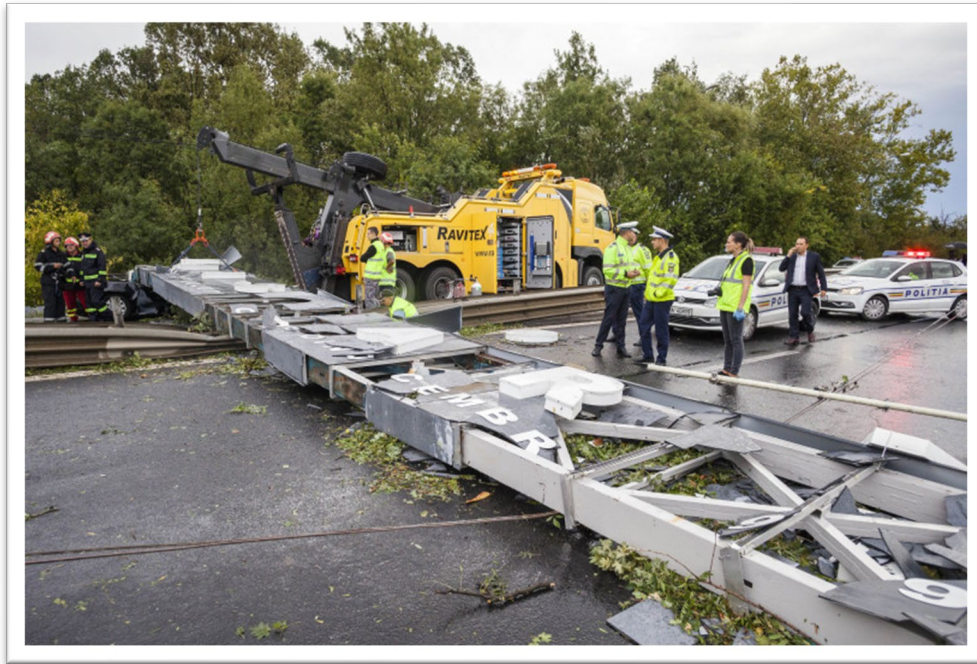

*Three people from the same family died in a park in Buzias.*

*The three people: the husband, wife and her mother had gone out for a walk in the park. When the storm hit, they tried desperately to get home to shelter. Unfortunately, a tree fell and hit them. Two of them died on the spot and the third died in the hospital in a really critic state.*

*MĂRGINEANU ANA MARIA  
RĂDOI MARIA CASIA  
CLASA a VI a A*

*Another very sad case is that of a 24-year-old young man who died crushed by the entrance gate to Timisoara.*

*It is very sad what such phenomena can do that take place not only in Romania, but all over the world.*

*All we can do is take care of the world around us, and hope that, from now on, our loving Mother Earth will be kinder to us!*
