

# CLIMATE CHANGE CORNER

---

1. Refuse to use polluting means of transport.
2. Reduce the waste of electricity, water, etc.
3. Rethink your choices.
4. Rectify your mistakes.
5. Refrain from throwing litter on the ground.
6. Repurpose old things and transform them into new ones.
7. Replace your plastic items with organic or non-polluting ones.
8. Report polluting habits.
9. Rescue your old clothes and give them a second life.
10. Recycle everything you can.
11. Reuse old things, just because they are old doesn't mean they have no value.
12. Remember the consequences of climate change.
