Subject: Garbage collection/ recycling

To whom this may concern,

First of all, we would like to express our gratitude for having placed the rubbish bins that we requested last year, for the bus station area, because since that moment we can see that there has been a significant reduction of rubbish on the ground.

We would also like to present another situation that deeply concerns us. In the motorcycle parking area, opposite our school entrance, it is common to find rubbish on the ground. To solve the progressive worsening of the situation, we propose placing one bin for unsorted waste and three bins for recycling (**plastic/metal, glass** and **paper**). We also suggest installing an ashtray, taking into account the number of cigarette butts thrown onto the ground.

For better clarification, we are attaching some images below.

Thanks for your time and understanding. We are looking forward to your reply.

Yours faithfully,

8D class (translated by 8A class), ESMA
